### Description

Our LED STRIP solutions are designed to meet the demands of any work environment. From construction sites to industrial facilities. These tubes offer flexible lighting for both temporary and permanent setups. This model is IP65-rated, making them fully resistant to dust, moisture, and harsh outdoor conditions.

One tube is 50m long with one rectifier, range extension with another 50m tube and a double rectifier input cable.

### Dimensions

Double Rectifier

FEATURE	DESCRIPTION
<b>Direct-to-AC 230V</b>	No external transformer required. Simply plug into a standard 230V AC outlet for instant use. Installation has never been easier.
<b>Extendable up to 100m</b>	Each LED STRIP roll features integrated male/female connectors, allowing seamless extensions up to 100 meters in length.
<b>User-Friendly Design</b>	Flexible and maintenance-free, the strip is designed for quick installation with tool-free linking via its built-in connectors.
<b>Exceptional Brightness</b>	Delivers powerful illumination with 180 high-efficiency LEDs per meter, producing up to 1000 lumens for vibrant, consistent lighting.
